

Michael Saad

Game Developer | Unreal Engine 5

Zagazig, Al-Sharqia Governorate, Egypt | +20 120 398 5331 | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Game Developer specializing in Unreal Engine 5 with nearly 2 years of hands-on experience in Blueprint visual scripting, gameplay mechanics, AI behavior systems, C++, and 3D asset integration. Pursuing a B.Sc. in Computer Science (Expected 2027) with a strong problem-solving foundation and a proven track record of delivering engaging game experiences from concept to completion. Professional experience at YouVerse.

TECHNICAL SKILLS

Languages: C++, Blueprint

Game Engine: Unreal Engine 5

AI Systems: Behavior Trees, Blackboard, AI Perception, EQS (Environment Query System)

Tools: Git, GitHub, Visual Studio

Other: Gameplay Mechanics, UI/UMG, Niagara (VFX), Animation Blueprints, Debugging & Optimization

SOFT SKILLS

Leadership (Founded the German Language Club at STEM school), Team Collaboration (15+ university team projects), Client Communication, Problem Solving, Self-Learning

WORK EXPERIENCE

Junior Unreal Engine Developer – YouVerse

March 2026 – May 2026

- Developed and localized interactive UI systems in Unreal Engine, including Profile Screens, Booth UI, Preferences Widgets, and Loading Screens with full Arabic/English support.
- Integrated external web-based systems such as MetaPerson Avatar Creator and Deal Engine directly into in-game pop-up interfaces.
- Implemented cinematic camera transitions and player-identification systems while resolving complex interaction and camera rotation bugs.
- Refactored gameplay and environment systems, including Wind and Rock mechanics, into core gameplay for improved maintainability.
- Fixed map patching and downloading system issues, optimized progress bars, and participated in full game testing and polishing.

Freelance Game Developer – Self-Employed

May 2024 – Present

- Delivered 13+ commercial game development projects for clients across the USA and Europe.
- Maintained consistent 5-star client satisfaction ratings across multiple complex projects.
- Specialized in building complete gameplay systems from scratch using Unreal Engine 5.
- Built a strong reputation for timely delivery and professional communication with international clients.
- Designed and implemented advanced gameplay mechanics tailored to diverse client requirements.

PROJECTS

MichaelByte_AI – Custom AI Plugin for Unreal Engine

- Developed a custom AI plugin featuring vision and hearing detection systems using AI Perception and Behavior Trees.
- Open-sourced the plugin for the developer community and shared it on LinkedIn to gather feedback and encourage adoption.
- [Link](#)

GREYMAN – Global Game Jam 2026 (Canadian University, Egypt)

- Ranked 8th among participating teams.
- Developed in 48 hours using Unreal Engine 5.

Flow Flam – Non-Competitive Global Game Jam (2026)

- Built in a 48-hour game jam using Unreal Engine 5.

EDUCATION

Zagazig University, Zagazig, Egypt

B.Sc. in Computer Science (Expected 2027) | September 2023 – Present

GPA: 3.0 / 4.0. Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Software Engineering, Database Systems, Machine Learning, Computer Graphics, Operating Systems.

Sharkya STEM School, Sharkya, Egypt

STEM High School for Outstanding Students | September 2020 – June 2023

Served as team leader in multiple STEM projects, coordinating cross-functional teams and delivering technical presentations; strengthened leadership, communication, and collaborative problem-solving skills.

CERTIFICATIONS & COURSES

- Certified Software Development – Mobile App Developer, Digital Egypt Pioneers Initiative (DEPI), Ministry of Communications and Information Technology (MCIT), Egypt
- Certificate in Data Science, IBM
- Certificate of Excellence in Mathematics, EduMeter Egypt

LANGUAGES

English – Professional Working Proficiency | Arabic – Native
